

If you knew you could make a **\$ 1** difference with **would you?**

Friends of the Kasai Christian Medical Institute have established an **endowment to ensure long-term financial stability** for this struggling 59-year old Presbyterian hospital/nursing school in The Democratic Republic of the Congo.

If every Church member in North America would donate **\$1**, it would generate well over the **\$5 million** needed for the IMCK living endowment!

**Add your dollar here** and our church will forward it, with thanksgiving, for the Kasai Christian Medical Institute's service to "the least of these . . . our brethren" in one of Africa's poorest countries. Or, for larger gifts, make a check to "Friends of IMCK", with "Endowment Fund" on the memo line.
