

CURRENT HEALTH FACILITIES FOR WOMEN ARE MORE HELLISH THAN HAVEN!

The best of the current conditions!

More typical!

WHAT IS BEING DONE ABOUT THIS?

- A **women's health center** is being built in the city of Kananga (population 1 million), with:
 - Modern birthing facilities and equipment,
 - A complete, modern **operating room**,
 - OB/GYN exam and consultation rooms,
 - Recovery and nurse's observation rooms,
 - Beds and private rooms for patients,
 - All necessary physician and nursing staff.
- \$96,000 has been raised so far by MPPC of Charlotte, NC and others, but an additional **\$33,000 is needed** to complete construction.

WHAT CAN YOU DO TO HELP?

But funds for construction alone are not the whole picture.

- The local population is **too poor to pay fees** necessary to operate such a modern facility.
- But the developed world cannot support their salaries and operating expenses forever either.
- So we also need to raise a permanent **ENDOWMENT** or trust fund, whose proceeds will help underwrite **operating costs INDEFINITELY**.
- Therefore, we are aiming to raise a total of **\$45,000**, of which **75% will go to construction costs** and **25%** will be added to an already established and growing **ENDOWMENT**.

That is what we mean by "Building it **Sustainably**"

Please look at the back of this brochure for information on how you can donate.

Building the Operating Room into space at the front of the auditorium
